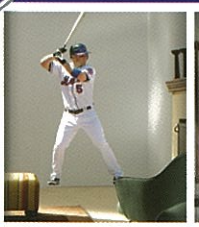
PRODUCT INSTRUCTIONS

REAL. BIG. Fathead

fathead.com



SAY HELLO TO YOUR FATHEAD. NOW LISTEN UP!

Step 1

BORROW AN EXTRA SET OF HANDS.

One good friend should do the trick.

Step 2

FIND ME A ROOM WITH A VIEW.

I belong where everybody can see me. The chart on the right details the best surfaces for my adhesive.

I STICK TO:	I WON'T STICK TO:
Painted* drywall	Unpainted drywall
Glass	Brick
Metal	Cinder block
Sanded Wood (w/o lacquer)	Porous textured paneling
Most wallpaper	Textured wallpaper

*Wait 30 days after painting before applying your fathead to the wall.

Step 3

MEASURE TWICE. STICK ONCE.

In a side-view mirror, I may appear smaller. But on your wall, I'm life-sized, baby! Don't be shy with the tape measure.

Step 4

CLEAN MY NEW HOME.

Use a warm damp cloth and a little elbow grease – no soaps or cleaning agents! Let it dry completely.

Step 5

PEEL AND STICK.

Unroll me all the way. Let me settle so I'm completely flat. It takes me about an hour to relax. With someone on either side, peel from the middle – gently! Then apply to the wall. If you make a mistake, peel carefully and reposition.

* NOTE: If your Fathead comes in one section, peel from the top. If it comes in two parts, peel the bottom section first. *

Step 6

SMOOTH MOVES ME.

Use the squeegee provided to smooth out the wrinkles and bubbles until I look like myself again. Make sure to get every inch of me, especially my top edges to keep me in my place.

Step 7

SHARE THE LOVE.

Your buddies are going to dig me. Invite them over for a peep. Throw a bash! When everyone's just about green with envy, be the hero and help them get their own ...
